Paris Boy Wins Debate.

The second annual debate between the Pariclean and Cecropian Library Societies of Kentucky University held in Morrison Chapel, Lexington, Friday evening, was won by the Pariclean Society debaters. The question was: "Resolved that to give the Interstate Commerce Commission the power to regulate freight rates, would be a step toward the Correction of Railway Abuses."

Reuben B. Hutchcraft, of this city, was one of the debaters and the Leader has the following about the young gentleman:

"R. B. Hutchcraft made the final speech for Pariclean, which also closed the debate.

"Mr. Hutchcraft went at the question with ungloved hands, cutting out everything that was not german to the subject. In other words, Mr. Hutchcraft's argument had much to do with winning the debate for the Pariclean Society.

Do Eyes Deceive?

In his message to Congress Mr. Roosevelt says: "This government stands for manhood first and for business only as an adjunct of manhood." If that means anything at all, it is a declaration in favor of "putting the man above the dollar." Now, will some of these Republican editors who have so often sneered when Democrats insisted that the dollar should not be placed above the man, enter their formal protest.

No Secret About It.

It is no secret, that for Cuts, Burns, Ulcers, Fever Sores, Sore Eyes, Boils, etc., nothing is so effective as Bucklen's Arnica Salve. "It didn't take long to cure a bad sore I had, and it is all O. K. for sore eyes," writes D. L. Gregory, of Hope, Tex. 25c at Oberdorfer's drug store.

A Trite Saying.

It is a trite saying that no man is stronger than his stomach. Dr. Pierce's Golden Medical Discovery strengthens the stomach—puts it in shape to make pure, rich blood—helps the liver and kidneys to expel the poisons from the body and thus cures both liver and kidney troubles. If you take this natural blood purifier and tonic, you will assist your system in manufacturing each day a pint of rich, red blood, that is invigorating to the brain and nerves. The weak, nervous, run-down, debilitated condition which so many people suffer from, is usually the effect of poisons in the blood; it is often indicated by pimples or boils appearing on the skin, the face becomes thin and the feelings "blue." Dr. Pierce's "Discovery" cures all blood humors as well as being a tonic that makes one vigorous, strong and forceful. It is the only medicine put up for sale through druggists for like purposes that contains neither alcohol nor harmful habit-forming drugs, and the only one every ingredient of which has the professional endorsement of the leading medical writers of this country. Some of these endorsements are published in a little book of extracts from standard medical works and will be sent to any address free, on receipt of request therefor by letter or postal card, addressed to Dr. R. V. Pierce, Buffalo, N. Y. It tells just what Dr. Pierce's medicines are made of. The "Words of Praise" for the several ingredients of which Dr. Pierce's medicines are composed, by leaders in all the several schools of medical practice, and recommending them for the cure of the diseases for which the "Golden Medical Discovery" is advised, should have far more weight with the sick and afflicted than any amount of the so-called "testimonials" so conspicuously flaunted before the public by those who are afraid to let the ingredients of which their medicines are composed be known. Bear in mind that the "Golden Medical Discovery" has THE BADGE OF HONESTY on every bottle wrapper, in a full list of its ingredients. Dr. Pierce's Pleasant Pellets cure constipation, invigorate the liver and regulate stomach and bowels. Dr. Pierce's great thousand-page illustrated Common Sense Medical Adviser will be sent free, paper-bound, for 21 one-cent stamps, or cloth-bound for 31 stamps. Address Dr. Pierce as above.

Dying of Famine

is, in its torments, like dying of consumption. The progress of consumption, from the beginning to the very end, is a long torture, both to victim and friends. "When I had consumption in its first stage," writes Wm. Myers, of Cearfoss, Md., "after trying different medicines and a good doctor, in vain, I at last took Dr. King's New Discovery, which quickly and perfectly cured me. Prompt relief and sure cure for coughs, colds, sore throat, bronchitis, etc. Positively prevents pneumonia. Guaranteed at Oberdorfer's drug store. Price 50c and \$1 a bottle. Trial bottle free.

Race Suicide Laid to Women's Clubs.

[Chicago Cor. New York World.] Olga Louise Cadiah, a young Ohio woman, has turned on her sex who belong to clubs and written dreadful things which she defies club women to deny. She pictures the club women as a destroyer of the home in the genuine meaning of the word, a woman who commits race suicide and encourages other women to do likewise. The average number of children to married members of the General Federation of Women's Clubs, she declares, is two, while the average number of children that blessed the mothers of these same women was three and a half.

"The average age of the membership of the women's clubs in the country is 33 years. The average age of the youngest children of the married members is 11 years. A careful investigation of the membership of women's clubs shows that only one married woman in sixteen becomes a mother after she has allied herself with women's clubs; that only one in forty-three during a period of eight years has become the mother of two children after her alliance with women's clubs."

The college-bred woman is put down as selfish. The author next presents the following statistics to show the bearing of the subject of race suicide on the modern church:

With 45,916 Methodist mothers the average number of children was 3.2-18.

With 36,234 Episcopal mothers the average number of children was 2.3-12.

With 42,825 Catholic mothers the average number of children was 3.5-7.

With 27,163 Presbyterian mothers the average number of children was 3.1-8.

With 29,247 Congregational mothers the average number of children was 2.9-14.

With 31,626 Baptist mothers the average number of children was 3.4-10.

All the mothers referred to, the author declares, have been married from 10 to 15 years.

Independent Occupation.

Will Survey Kentucky.

Representative Hopkins, of Kentucky, has received definite assurances from the United States Geological Survey that a complete survey would be made of the coal fields in the Kentucky and Big Sandy River district. This will mean the initial step in the development of a section of Kentucky which is supposed to be marvelously rich in mineral resources, and eventually should prove a great value to the commercial interests of the State. The survey will include the counties of Pike, Floyd, Johnson, Martin, Magoffin, Morgan, Breathitt and Lee. The geologists will start out early in the Spring and will prosecute their survey until they are completed.

—J. B. Walker, of Madison county, one of the largest hemp raisers in the State, is now actively engaged in breaking his large crop of hemp near Richmond. Hemp is usually broken in February or March, and this work going on in December is something unusual. This phenomenon is said to be due to the extraordinary hemp growing weather afforded this year. He has at present about 100 hands employed in the breaking process.

—The tobacco growers of Brown county, Ohio, have organized and pledged themselves to plant of tobacco during 1906. Robert J. Lyon, Georgetown, O., is the man to communicate with. He urges organizations all over the white burley district.

Defective plumbing permits the entrance into the house of sewer gas bearing germs or contagious disease to which the human system readily succumbs. "Might Be Worse."

The St. Louis Globe Democrat says: "On the whole, Secretary Shaw has a pleasant tale to tell. The government's receipts for the fiscal year 1905, which ended on June 30, were \$697,000,000, and its expenditures were \$720,000,000. This shows a deficit of \$23,000,000 for the first year, but it was much smaller than had been expected some months earlier." Of course, "nothing is so bad but it might be worse," even under a Republican administration.

Stable Burns.

The stable of Thos. Henry Clay, Sr., in rear of his Pleasant street residence, was destroyed by fire Sunday morning about 1:30 o'clock. A valuable horse was saved but the remaining contents, including vehicles and harness, were destroyed. Loss, \$1,000; insurance, \$750.

A Varied Assortment.

For quantity, quality and variety, the Link Grocery Co., offer exceptional inducements to Christmas shoppers. Their stock is complete in every detail, including everything needed to make the Christmas dinner a royal feast. 2t

Postoffice Will Be Open Sunday.

Anticipating the usual heavy holiday business at the local postoffice and in order to accommodate not only the people of Paris, but all the patrons who receive mail by the rural route service, Postmaster Earlywine will keep an open house on Sunday, December 24, assisted by his entire office force, including the nine rural carriers. Any resident of the city or person residing on the rural routes will be promptly waited upon should they call at the local office. The receipt and delivery of all registered matter will be attended to the same as any other day.

The More Sensible Way.

It is our opinion that every Christmas there is a greater tendency on the part of gift buyers to keep away from the trashy, worthless stuff so often displayed in such an enticing manner. In the place of buying such articles, they nowadays seem to be seeking after something that will not only please the recipient, but also be of some actual service. While on this subject we might add that while we were in J. T. Hinton's large establishment recently we were greatly impressed by the fact that, although collected there, was as great a variety as you would find anywhere, every article was not only useful and ornamental but exceptionally pleasing to the eye.

In Circuit Court.

The past few days in Circuit Court has been taken up by the Walls' will case. The testimony was concluded Friday evening and arguments were begun Saturday morning. Speeches were made by Robert C. Talbott and Robt. B. Franklin for the contestants and by E. M. Dickson and C. J. Bronston for the will. The latter finished his argument just before noon yesterday and the case was given to the jury. After several hours of deliberation the jury returned with a verdict in favor of contestants. This was the second trial of this case and the jury on first trial stood 9 to 3 for the will, and now this jury stands 9 to 3 in favor of breaking the will.

Judge Stout on yesterday decided that N. C. Fisher, the guardian appointed by Judge Smith for the Malcolm Boswell children, should continue to act as guardian and have charge of the estate pending the appeal that has been taken by Mrs. Cynthia Wright from Judge Smith's decision in the case. This question had been argued before the Judge for about twelve hours by the following attorneys: Brent & Thomas, C. J. Bronston and E. M. Dickson for Mrs. Wright, and Denis Dundon and T. E. Moore on the other side, the latter two gentlemen winning out.

Green Jackson, colored, was given two years in penitentiary for breaking into a freight car in L. & N. yards.

BOTH PHONES—DAY 137; NIGHT 299.

On Education, Etc.

Education does not consist in knowing a lot of unnecessary things. Liberty means responsibility, and responsibility tests the man and the race.

In rare families, as in rare books, the editions are limited.

Because a man is polite to you don't presume that his time is without value.

Many men stoop to conquer and some of them stoop very low.

Your average school board is the conscious cause of great laughter.

There is great power in beauty, and greater power in love.

Blood is not much thicker than water when money is at stake.

He Is a Musician.

An Eastern newspaper says that Jack London, on his last visit to New York, was introduced in a cafe to a musician.

"I too, am a musician in a small way," London said. "My musical talent was once the means of saving my life."

"How was that?" the musician asked.

"There was a great flood in our town in our boyhood," replied London. "When the water struck our house my father got on a bed and floated with the stream until he was rescued."

"And you?" said the musician.

"Well," said London, "I accompanied him on the piano."

Mr. McCreary's Tariff Bill.

Mr. McCreary, of Kentucky, introduced in the Senate a bill to reduce the tariff of the United States by providing that there shall be levied upon all articles imported from foreign countries a rate equal to three-fourths of the present schedule.

Franchise Measure Vetoed.

Mayor C. H. Bryan, of Mt. Sterling, vetoed the ordinance granting franchise to Younger Alexander and others for use of streets of Mt. Sterling for an electric railway. The Mayor gives as his reason that the law prohibits a member of the council from being interested in the franchise and that O. M. Cockrell, member from the Fourth ward, is a member of the company to which the franchise was granted.

Good Farm For Sale.

The Mrs. Hiram Carpenter farm of 230 acres, 7 miles from Paris, Ky., and 4 miles from North Middletown, on the Harrods Creek pike. If you are interested, write

For Timothy or Clover Hay, Straw or Oats, go to Stuart & O'Brien, directly opp. L. & N. Freight Depot.

Buy at Home.

Just now the great mail order houses are flooding the country with catalogues with a view of securing cash in advance for their goods. People who are obliged to buy on credit of their home merchant nine or ten months in the year, ought not to allow themselves to be humbugged by these greedy firms who are building up the greatest monopolies on earth. No person should send away for goods without first giving the home dealer a chance to figure on the bill, for he can, and will, save you money, and he never has the cheek to demand the cash thirty days or even one day in advance.

Cut Flowers.

Let me order your cut flowers for the holidays. The choicest of flowers for social functions on short notice.

Things to Talk About.

A Zulu named Kwezi, living in Alfred County, Natal, has died at the advanced age of 117 years. Meat and milk were the principal articles of his diet. His sister, three years older than himself, still lives.

The average value of diamonds in the rough at New York is \$37.50 a karat. The price to the public is more than \$100 a karat, because of in cutting, labor in cleaving, cutting and polishing and dealers' profits.

Several schools in Nevada have been compelled to close because the trustees have found it impossible to secure teachers. Almost as soon as they arrive and take charge they marry.

Not long ago Russia forbade the purchase or sale of typewriters without police permission. It was done to check the use of typewritten revolutionary circulars.

The Mohammedans of Bengal are organizing demonstrations in favor of the partition of the Presidency, in order to annoy the Hindus, who are unanimously against it.

Five acres of black Taratran cherries were in full blossom near Petaluma, in Central California, on November 1.

The Shah of Persia has placed another order for six high-grade automobiles in Paris. The value of this order is said to be \$23,800.

The Portuguese Government will build a railroad from Delagoa to Swaziland. That adds one more to the "openings up" in Africa.

The United States raises three-fourths of the world's cotton supply.

A meteor whose weight is estimated at fifty tons recently fell in Mexico.

Chrysanthemums, it is said, were cultivated in China before the eleventh century.

New States.

The caucus of the Republican members of the Lower House of Congress have decided to support a bill for the admission of Oklahoma and Indian Territory as one State to be called Oklahoma, and the admission of Arizona and New Mexico as one State to be called Arizona. The bill will go through by a large majority.

Sensible Presents.

Let us fix up an up-to-date bath room for you—a new bath tub, stationary wash stand, closet, soap rack, shower bath, etc. Nothing would be more suitable for a holiday gift.

THE FAIR

All Roads Lead to The Fair
at Christmas Time.

There's more downright enjoyment in visiting The Fair, more pleasure in choosing, more economy in buying, than at any other Christmas store in Paris. Pin your faith to The Fair and Christmas will come out just right.

Our Toy Department is a veritable haven of happiness for boys and girls. Toys and Dolls are shown, not merely by the hundreds, but literally by the thousand, and in such immensity of variety as can be found nowhere else in Paris. Bring the children to see it.

A pretty piece of Chinaware is one of the most acceptable Christmas gifts. And where would you go for such a gift but to The Fair, which devotes hundreds and hundreds of feet of counter space to China alone. There never was such a Christmas show of China gotten together in Paris as the one we show this Christmas.

Hundreds of pleasing little gifts at a dime apiece are shown in our special Ten-Cent Department on the second floor. This department is attracting immense attention, and is certainly one of our most wonderful Christmas features.

Don't forget The Fair Annex, four doors down the street; a bazar of splendid Christmas merchandise, of which immense hosts of Christmas China are the leading feature. It isn't enough just to visit The Fair, you should see The Fair Annex also.

Be careful of the Christmas pennies. There's no more need to waste money at Christmas time than at other times. Every gift you buy at The Fair will be a marvel of excellence for the money, and will help you make your Christmas money go farther than you expected.

article used in the preparation of food should be prohibited."
